**STUDENT LEADERS  
& EXECS**

“Warwick Volunteers allowed me to grow from a volunteer to a student leader, helping me develop invaluable skills that will surely be useful in my future.

Through the past three years, I have gained many friends through volunteering and seeing the change we can bring to both the community and our fellow students has been extremely rewarding.”

“One of the real pleasures of being part of Warwick Volunteers is that students are in the driving seat. Students actively shape and offer many different opportunities to meet the community need. The staff, on the other hand, give their all to ensure that the visions of the volunteers become a reality.”

“Through my time at Warwick Volunteers, I have been able to give back to local communities, whilst developing myself as a volunteer, person, and student.

Volunteering is at the core of being human and is an important part of acquiring skills vital for everyday life.”
