choice and versatility

Each of our three Training and Conference Centres is a dedicated business venue, run with our clients in mind. Between them they offer you an impressive range of meeting and training facilities. You can choose from a tiered 120 seat lecture theatre, 33 lecture rooms and 90 syndicate rooms that can be customised to suit your brief. All venues have their own Business Centre, fully equipped with PCs, printers, internet access and the latest software. The sheer variety and flexibility of our facilities give you the freedom to create exactly the event you want.

All this is set in the peace and tranquillity of The University of Warwick's beautiful 700 acre parkland. Available all year round, they provide a distraction free environment where your delegates can concentrate on your message.

"The training rooms are equipped to a high standard, while the facilities on the campus are excellent too. When you are running intensive, week-long courses, as we do, delegates need to get away from the training room to relax and unwind, especially ours because a great many of them work outdoors. The staff are so friendly and helpful at Warwick and that makes the courses more enjoyable and ensures everyone gets more out of them."

Environment Agency

“Many thanks for all your help regarding the Dementia Academy meeting. It all went really well and we thought the facilities at Scarman were excellent. The staff were friendly, efficient and ensured the event ran smoothly. The delegates had a lot of praise for the venue and we shall definitely be returning to Warwick Conferences again in the future.”

Packer Forbes Communications

“We have held two annual conferences for over a hundred delegates and half a dozen smaller meetings during the past three years. The staff are always professional and friendly – and the facilities and catering are of an equally high standard. We would have no hesitation in recommending Warwick Conferences to any event organiser.”

Venuemasters

focused on your objectives

Your event receives individual care and attention from the minute you make your booking. A dedicated Event Manager is assigned to work alongside you to ensure planning your event is hassle free. After listening to your aims and contributing practical ideas and suggestions, they will help you plan everything down to the last detail, ensuring a successful, stress free event every time.

Any rooms chosen for your event will be set up with exactly the layout you require, and we provide all the equipment you need, from training materials to integrated AV technology.

Scarman lounge

we think of everything

Warwick Conferences is not only about providing the right space and the best choice. We create an atmosphere where learning and work become a pleasure, and where, at the end of the day, your delegates can relax and enjoy themselves.

There are 475 en suite bedrooms with all the home comforts you would expect of a four star equivalent facility. We have modern, stylish restaurants with food created by award winning chefs. They prepare exciting new menus every day, made from the freshest ingredients. Your delegates can get together in our lounge bars, where drinks are reasonably priced. For the more energetic, there's an exercise room on site, while just a short stroll away The University of Warwick has extensive sports facilities which delegates can use, including a 25m swimming pool, fitness suite, sports halls and pitches for all outdoor sports. In fact, Warwick's campus provides everything from banks to bookshops and there's even an Arts Centre with a cinema, theatre and art gallery for the culturally inspired.

“The big selling points are the large training rooms on offer with two inclusive syndicate rooms and equipment incorporated in the rate – they represent excellent value for money.”

Audit Commission

“Everything about the Warwick Conferences experience – the facilities, the food, the accommodation and the helpfulness of all the staff – is excellent. When you are organising so many training programmes, as we do at Radcliffe Training and Conference Centre, it is so reassuring that they actually deliver what they say they are going to provide for you. We have never had any problems due to the high standards and efficiency.”
