In practice you need to go over the work of term 1 briefly, filling in any gaps in vocabulary. You will have greater gaps in vocabulary from Chapters 13-17: try to fix this, but make sure the vocabulary from 18 to 22 is solid.

You have focused on tenses, so focus on these - make sure you can not only recognise them but form them as well. But don't forget to make sure you can recognise cases of nouns and adjectives as well!

Next term, we will study Chapters 23 and 24. If you have time, you may like to look ahead. Materials for these chapters will go on the website during the latter half of the vacation.
