

The following lectures were recorded by the British School at Athens in both Athens and London, as part of our academic lecture programmes. These presentations document new research and new ideas. Some of these ideas are currently unpublished.

Although lectures were not given with the school syllabus in mind, they have been organized here by module, to provide ‘extension’ activities and additional material for interested students.

The information in these lectures can be used when students are required to make reference to recent scholarship.

GCSE Classical Civilisation

Myth and Religion
