

### Percentage the population of England and Wales that was foreign born, 1851-2011

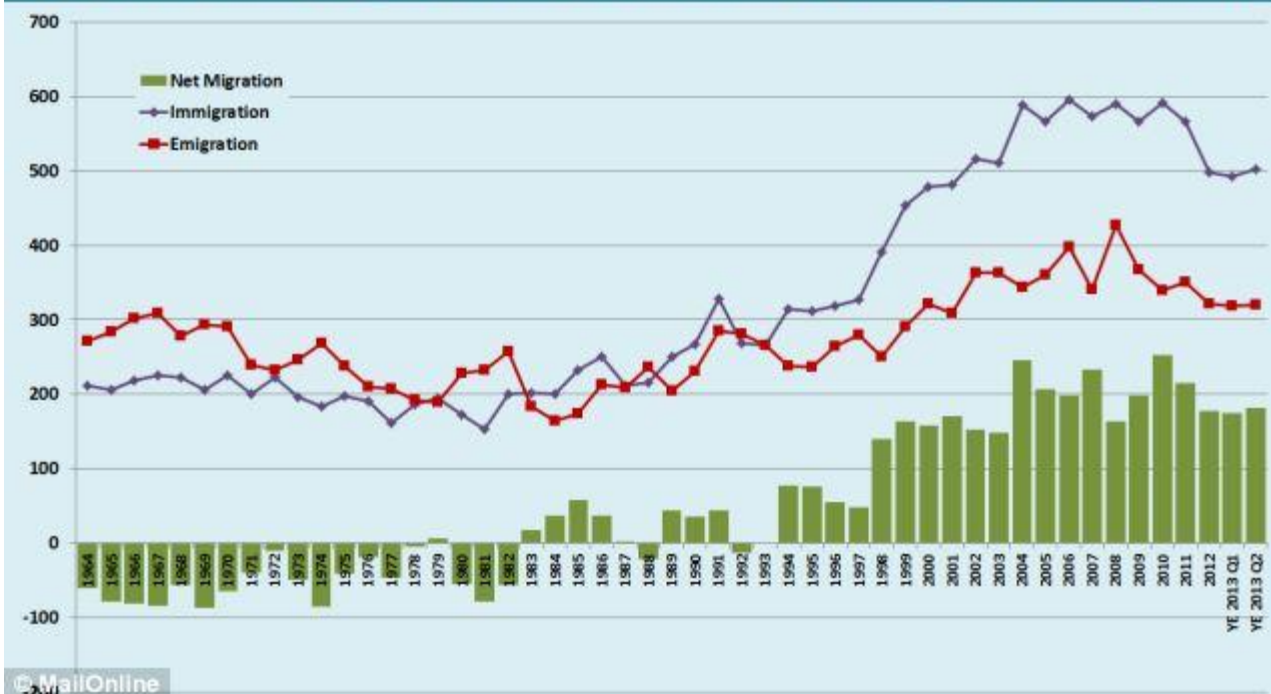

<http://www.migrationwatchuk.com/Briefingpaper/document/48>

#### Conclusion

16.1. Britain has experienced many relatively small episodes of immigration over the centuries. For nearly a thousand years migration was on a very small scale compared to the size of the population. In the decades between the Second World War and the late 1990s, foreign immigration grew steadily at a relatively modest rate before declining in the late 1960s and becoming fairly stable between 1971 and 1981. The massive increase in the level of migration since the late 1990s is utterly unprecedented in the country's history, dwarfing the scale of anything that went before.

#### HOW HUNDREDS OF THOUSANDS MORE ARRIVE EACH YEAR THAN LEAVE

# WHERE THEY CAME FROM

Immigrants to England and Wales, 2001 - 2011

 <b>1 Poland</b> <b>531,000</b>	 <b>6 United States</b> <b>105,000</b>
