Warwick Core Skills (WCS) Consultation

WCS will be used to help students make sense of the skills they are gaining at Warwick. The consultation is to encourage input from as wide as possible a range of stakeholders, to make sure this core can be truly representative of all disciplines. WCS will be the same across the University. This will further enhance the value students gain from core and optional modules, interdisciplinarity, student research and international experience as it provides a common language to reflect on all of these together with their experiences from clubs, sport and temporary work. The consultation asks you to consider:

- Are there any omissions?
- Are all Core Skills proposed appropriate?

The list of core skills and consultation paper may be found here.

Peer Dialogue

Senate approved a new policy on peer dialogue of teaching in June 2019 based on the following principles:

1. The University shall operate ‘Peer Dialogue on Teaching’ schemes in each academic department to support the development of individual teaching practice.

2. The University requires all staff who teach on foundation, undergraduate or postgraduate taught courses to participate at least annually in Peer Dialogue on Teaching activities, either as an observee, an observer, a participant in discussions relating to enhancement of teaching practice, or similar, or any combination of these.

3. Each academic department shall articulate and agree the detail of its Peer Dialogue on Teaching scheme. Details of the scheme shall be communicated effectively to both students and staff to ensure confidence in peer dialogue as the basis for enhancing quality, and shall be shared with the University’s Education Policy and Quality team when established and when changed.

Departmental schemes for peer dialogue need to be finalised by January 2020.

The policy was developed by the WIHEA Learning Circle on Peer Observation and further resources and advice will be published shortly.
