

SSLC Manifesto – Liv Preece u1612916 third year

I would like to run for course Secretary/third-year course rep because I feel that throughout my two years as part of Liberal Arts at Warwick, I have become more and more passionate about the course and all that it encompasses. I feel strongly that I want to refine and better the course for years to come; making it better and more distinguished each year. I am really interested in listening to feedback from course mates and seeing how this is put into practise for future years, and I have heard many amazing things and noticed the excellent work that has been done by the previous SSLC panels in the past two years. From when the course started up in 2016, it has only grown and become more improved year after year, and I think that this is what is going to define the course in years to come. I believe this opportunity would be really valuable for me, not only to develop some key skills such as transferability, but also to engage with students like me who feel just as strongly for the course.
