

LoCoR

THE LONG-TERM COLLECTIVE RESEARCH PROJECT

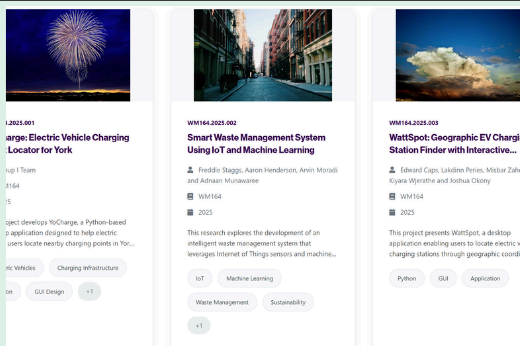

Unlocking the untapped potential of student research

THE PROJECT TEAM: FENG MAO, BING LU, GIOIA PANZARELLA, JIANHUA YANG, SURANGI JAYAKODY, MODUPE JIMOH, LAURA LAMMASNIEMI, JASON ADAMS, ELENA SOKOLA, CHLOE BARKER, NAVEERA ABHAYAWICKRAMA, MADISON BRACHER, ALEXA SUJATNA.

ABOUT THE PROJECT

The LoCoR model is a 2-year Education Fund initiative which aims to address the lack of sustainability in student-led research, a challenge widely observed in undergraduate degrees across the UK. The collaborative and iterative model aims to empower students whilst fostering inclusive research communities. The project aspires to transform project-based learning, and to encourage collaboration between students, professors and other stakeholders.

The LoCoR Team

THE MODEL

- The model is embedded within pre-existing project-based learning modules.
- It offers students the opportunity to build on previous work, advance research across generations, and help to respond collectively to key sustainability, engineering and medical challenges.
- Participating modules are used to co-design, pilot, evaluate and refine the model.
- The online showcase enables students to pass on the legacy of their work to future generations and cohorts.

CO-CREATION

- Co-creation is at the **heart** of LoCoR.
- Throughout the project, focus groups and a student panel has ensured that student voice is heard.
- The model aims to inspire students and enrich experiences with project-based learning.
- The project calls for internal and external stakeholders with a shared commitment to sustaining and supporting student research.

UNIVERSITY OF WARWICK

CALL FOR NEW PARTNERS

Current participating modules include:

- **GD307** GSD Dissertation - School for Cross-faculty Studies
- **WM195** Smart Solutions Development - WMG
- **ES327** Individual Project - School of Engineering
- **Dissertation Module** - Warwick Medical School

We warmly invite new partners who lead project-based learning or teaching modules to join the LoCoR initiative, and help to build our growing community.

Contact: Feng.Mao@warwick.ac.uk for more information.
