

WIHEA Academic Literacies Learning Circle presents ...

A one-day Symposium on Academic Writing

Friday 3rd May 2024 10am-3pm **OC1.05**

Open to all University of Warwick staff and students, this one-day symposium will aim to be a space for exploring and challenging how academic writing is practiced and performed at Warwick.

The day will be divided into 3 parts:

1. The scene will be set by Dr Julia Molinari (The Open University) who will talk about her work on 'What Makes Writing Academic'.
2. Participants will then discuss a selection of provocations to challenge and disrupt our thinking about academic writing.
3. Participants will collectively write a manifesto for a reimagined approach to Academic Writing at the University of Warwick.
