

Stop single-use cups on campus!

Did you know? 2.5 billion single-use coffee cups are used every year in the UK and end up in landfill.

5 step plan solution:

 1 Create clearly signed coffee cup recycling points on campus along with posters educating people on why it is difficult to recycle single-use cups

 2 Implement the Huskee scheme, a loan borrowing reusable cup scheme across campus.

 3 Start charging more for single-use cups rather than giving discounts for bringing your own cup and charge more for lids.

 4 Encourage coffee shops in the surrounding area of the university to join the Huskee scheme as well.

 5 Remove the availability of single-use cups in as many of the cafes on campus as possible.

What is Huskee swap?
