

COMPLEXITY AND SUSTAINABILITY

30TH JUNE 2015

The IOP's Nonlinear and Complex Physics Group would like to invite you to attend their annual summer meeting this June.

The aim of this free event is to provide an opportunity for researchers working across disciplines to meet and discuss how various aspects of complex and nonlinear science can be applied in order to achieve a sustainable future.

We invite speakers working in a wide range of disciplines related to complexity science and the environmental sciences to talk about their latest research in the field.

IOP | Institute of Physics
Nonlinear and Complex
Physics Group

**Abstract
submission
deadline: 08/06/15**

**Registration
Deadline: 15/06/15**

Keynote speakers:

**Professor Michael
Batty (Bartlett Centre
for Advanced Spatial
Analysis, University
College London)**

**Dr Martino Tran
(Environmental Change
Institute, University of
Oxford)**

**Register at:
