

ENTREPRENEURSHIP AT WARWICK

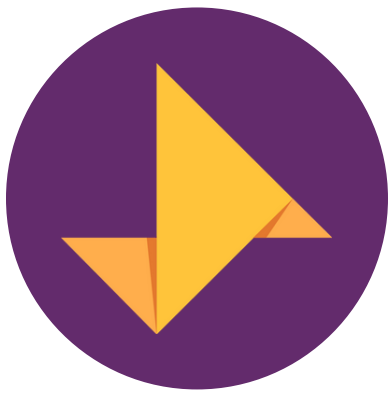

Are you a Warwick student interested in entrepreneurship? With so many opportunities out there, We've compiled this manual to provide information on anything and everything to do with Entrepreneurship and Innovation at Warwick.

ENTERPRISE STUDENT SOCIETIES

WARWICK ENTREPRENEURS:

We help those with an idea to realize and grow it into a full-fledged business and interest students in entrepreneurship. We organize interactive events, our conference, a student-run Apprentice competition and have a mentorship scheme. These allow one to learn from successful entrepreneurs and realise their skills in practice.

ENACTUS WARWICK

We work on the development of innovative social enterprises in the local Coventry area to consulting international organisations like the UN. We also have the innovation unit which supports and nurtures projects in development at the conceptual phases of starting up and is also an idea generating machine.

WARWICK INCUBATOR

We are a student-run incubator and we empower students by providing them with a wide range of resources. Our 16 weeks program is based on lean startup methodology. Opportunities such as 1:1 mentoring and the chance to pitch your idea in front of a panel of investors are offered.

WARWICK SEED

We promote social impact careers and global collaboration by facilitating links with businesses making a social impact both in the local area and also in Melbourne. With Monash SEED, we aim to facilitate global partnership and collaboration.

WARWICK KICKSTART

We open the doors for students to careers that are underrepresented in Warwick. We work to bring together events, careers information and events about Start-Ups & Venture Capital, Fin-Tech, Social Enterprise and Digital Marketing. We also host the UN affiliated Hult Prize on campus.

WARWICK ENTERPRISE

WARWICK ENTERPRISE

We are Warwick Enterprise, an academic department supporting entrepreneurial and innovative initiatives across the university. WE provides a number of opportunities to nurture and develop entrepreneurs at Warwick through education, mentoring, networking and workshops.
