Re: Support for Jonathan Shaw to attend the Autumn Academy

Dear Sir/Madam,

In my capacity as his PhD supervisor, I am writing to express my support for Jonathan attending the HPC Autumn Academy in Cambridge.

It will be very valuable for his research topic, which involves estimating complicated, computationally intensive structural models for economic policy analysis. He is enthusiastic about attending.

Jonathan will have access to HPC facilities after the course has ended, and the skills he acquires will also be useful more broadly for research at IFS.

Yours faithfully,

Richard Blundell
Professor of Economics, UCL
