

Ali Khajegili Mirabadi

University of British Columbia, Vancouver, Canada

Ali Khajegili Mirabadi is currently pursuing a PhD in Bioinformatics at the University of British Columbia in Canada, under the supervision of Dr. Ali Bashashati at AIM Lab. Previously, he earned a double-major undergraduate degree in Electrical Engineering and Applied Mathematics with honors at Isfahan University of Technology in Iran. His research interests lie in the areas of Deep Learning, Computational Pathology, and Mathematical Modeling, particularly focusing on representation learning and similarity learning on large-scale pathology data.
