

Georg Wölflein

University of St Andrews, St Andrews, UK

Georg Wölflein is a PhD student in Computer Science at the University of St Andrews under the supervision of Dr Ognjen Arandjelović. Prior to this, he completed a direct-entry integrated master's degree in Computer Science at the same institution. His research lies at the intersection of computer vision, deep learning, and computational pathology. In particular, he is interested in weakly supervised biomarker prediction in histopathology images, as well as self-supervised learning and vision-language models.
