

Dr. Pingjun Chen

University of Texas, Houston, USA

Pingjun Chen is an Instructor committed to computational pathology at The University of Texas MD Anderson Cancer Center, where he conducted postdoctoral training from 2020 to 2023. Before, he earned B.S. and M.S. degrees in software engineering and medical image analysis from the Dalian University of Technology, China, in 2012 and 2015, respectively. He received a Ph.D. degree in biomedical engineering from the University of Florida in 2020. His research concentrates on developing cutting-edge computational models and frameworks to advance cancer prevention, detection, diagnosis, and treatment. He has published over 30 peer-reviewed journal and conference articles in these research areas. Dr. Chen aims to harmonize the perspectives of pathologists, oncologists, biologists, and computer scientists toward developing robust solutions to address critical unmet needs for making cancer history.
