

Dr. Yuri Tolkach (MD, PhD)

University Hospital Cologne, Cologne, Germany

Yuri Tolkach, MD, PhD, is an attending pathologist at the Institute of Pathology of the University Hospital Cologne, Germany, and a Lead of the Research Group for AI applications in digital pathology (tolklab.de). He and his team developed a number of diagnostic tools for different malignant tumours (prostate, kidney, colorectal, oesophageal, lung cancer and others), for quality control in pathology, and led the organisation of the SemiCOL computational challenge. Yuri Tolkach is a Vice-President of the European Society of Digital and Integrative Pathology (ESDIP) and a Chair of scientific committee of European Congress of Digital Pathology (ECDP 2022-2024).
