

# One week. Real impact.

## European Study Group with Industry 2027 at University of Warwick

Work with leading experts in maths, AI and data science to solve your real-world challenge.

- Bring your real-world challenge and work intensively with top academic experts
- One immersive week to shape ideas into practical research directions
- Access expertise in mathematical modelling, statistics, machine learning, and AI
- Designed for interdisciplinary innovation with real-world impact
- Continue the journey with post-event collaboration and support

### From Idea to Impact

- Pre-event scoping meeting to explore your business challenge
- Collaborative ESGI intensive week with expert teams
- Ongoing support to turn ideas into long-term projects

*Fully immersive, high-impact innovation experience*

*Accommodation, meals, and networking included*

*Connect with the UK's growing network of Innovation Research Associates*
