

# Warwick Chemistry Departmental Seminar

**Dr Russ Kitson**

University of Warwick.

05 October 2017

4.00 pm, Physics Lecture Theatre, Science Concourse

## **‘And Now for Something Completely Different’: A story of a switch from lab-based to chemistry education research.**

First half: Design, synthesis and evaluation of Hsp90 inhibitors as cancer and Parkinson’s therapeutics.

Second half: Chemical education research at Warwick, focussing on a new teaching lab initiative.

### **Biography**

MChem Leeds, PhD York (Richard Taylor), Postdoc Nottingham (Chris Moody). Two stints in industry at AstraZeneca and Sygnature. Took up a teaching fellowship at Nottingham and then came to Warwick as a Senior Teaching Fellow in 2015.
