

Emerging Nanomaterials for Healthcare

ENH2014

Programme

09.30-09:55	Registration + coffee
09.55-10.00	Welcome - Dr Gemma-Louise Davies and Dr Mathew Robin
10.00-10.45	Dr Catherine Berry <i>Gold and Magnetic Nanoparticles: Applications in Cell Engineering</i>
10.45-11.05	Dr Sebastian Spain <i>DNA-based Responsive Materials for Programmable Therapeutics and Diagnostics</i>
11.05-11.25	Daniel Phillips <i>Siderophore-Inspired, (Isothermally)-Responsive Polymers</i>
11.25-12.10	Prof Marina Resmini <i>Polymeric Nanoparticles for Non Invasive Transdermal Drug Delivery</i>
12.10-13.30	Lunch + Poster session
13.30-14.15	Prof David Fulton <i>siRNA Delivery with Mixed Polymer Micelles</i>
14.15-15.00	Prof Nguyen Thanh <i>Next Generation of Magnetic Nanoparticles for Biomedical Application</i>
15.00-15.45	Dr Matthew Gibson <i>Polymer-Coated Gold Nanoparticles as Versatile Scaffolds for Probing the Nano-Bio Interface and Glycan-based Biosensing</i>
15.45-17.00	Round table + afternoon tea
17.00	Closing remarks
