Academic year 2023-24

CS310: Computer Science

CS Students	Topics
Edwin Nganga	An AI tool to predict the FTSE 100 index
Faye Warrington	Unveiling digital deception: an advanced tool for detecting image tampering in order to maintain media integrity
Joshua Liley	Using optimisation algorithms to generate quality dance shows
Lucas Haffner	Exploring the Effectiveness of Generalized Datasets and Machine Learning Algorithms in Intrusion Detection for IoT Protocols

CS351: Computer Systems Engineering

CSE Students	Topics
Alvin Karanja	Gatsby: A Blockchain Based Ticket Distribution Social Network
Erkut Gurcenan	Predicting the outcome of the NBA matches

CS407: Master of Engineering

MEng Students	Topic
Lukasz Stanaszek, Lara Goss, Dan Fredrickson, Matthew Wight	Automated image OSINT
