I gratefully acknowledge the debt that I owe to the many people who have helped me. Without the support of Mark Norris at British Telecom the project would not have been possible. Steve Russ gave practical advice at various appropriate stages. Ian Gent and Guy Saward supplied mental sustenance. Meurig Beynon, possessed of boundless enthusiasm, provided the crucible of ideas from which this work was drawn.

This work was sponsored by British Telecom and the Science and Engineering Research Council under grant 88503360.
