

1. 4 Agent perspectives.

IBM paper revisited

2. Elaboration of issues

James quote 2

3. Issues / Influences

PROGRAMMING

4. Baldwin (From paper + Pen notes) M1
slides 8, 9, 10.

5. Translation techniques of portability issues

6. SICP programming

SAND

→ Implications for development

(W1 ACTORRATH)
(of actor riphi)

Software Development

System

Hand: sketches

- Empirical approach
- Concurrent Engineering
- Compositional aspects

• SIT build sketch + link to model

• sketches ⊆ LPD existence of agency

AI / Application

• "Commonsense concurrency"

• pragmatic stance on truth

JAMES quote

• identify domain of validity + what is
found / believed

• Beales - Society of Mind

Foundations

Bootstrapping techniques, (2 slides)

Conclusion re Formal: physical reliability
(WI) fund

James? — need for more than words.
