HOW TO APPLY

To apply to study on one of our 2+2 degrees you will need to fill in an application form through the Universities and Colleges Admissions Service (UCAS): www.ucas.com/students.

This is a system used by all students applying to universities in the UK. The deadline for applications (2021 entry) is 30 June 2021.

REGISTER AND LOG IN

Register for an Undergraduate UCAS Apply account for 2021 entry.

- Enter your personal details to set up an account, including your postal address in China.

- You can also choose what you would like UCAS to contact you about. If you do not wish UCAS to contact you about anything other than your application then you can switch off all of these options.

- Once you have registered you will be given a username. Make sure you write this down.

- Unless your university is set up on the UCAS system and has a ‘buzzword’ they give you, you are applying ‘as an individual.’

- You will be sent an email with a verification code. Log into the UCAS website and enter this verification code.
This section asks you to fill in all your personal details.

- Unless you have previously spent time in the UK, your ‘date of first entry to UK’ will be 27 September 2021.

- Under ‘Reference numbers’ you can enter your test number for IELTS or TOEFL if you already have these. Leave this section blank if you have not yet taken an English language test.

- Your fee code is likely to be ’01 Private finance’ unless someone other than your family is financing your studies.

- Under ‘Disability/special needs’ please let us know if you have any disabilities.

This information is requested so that we can make sure we put into place any support required to help you on your course.
CHOICES

In this section you need to add the course you are applying to study.

Here are the key details:

- Institution code: W20
- Course code: H605
- Campus code: Main site
- Start date: September 2021
- Live at home while studying? No
- Deferred entry? No
- Point of entry: 2

EDUCATION

In this section you will need to enter both your current studies at university and your previous studies at school.

- As you have not yet finished your degree, please choose ‘no qualifications’ for your university degree.

- For your school studies please include details of subjects and marks.

If you start to type ‘China’ into the search box, you should find all possible qualifications and you will be able to choose the one applicable to you.
EMPLOYMENT

You can leave this section blank unless you have had any paid work.

- Any work experience relevant to Engineering can be included in your personal statement.

PERSONAL STATEMENT

Your personal statement is an opportunity to tell us why you would like to study on this course. The completed statement must be between 1,000 and 4,000 characters (maximum 47 lines) including spaces.

We’d advise you to write your personal statement using a word-processing package and paste into the UCAS statement.

You’ll find some guidance on writing your personal statement on the UCAS website but here are some ideas of things to include:

- Why are you interested in studying Engineering?
- Your interests
- Relevant school or university work
- Any relevant employment
- Competitions, summer schools etc

REFERENCE

In this section you will need to include the details of a member of staff at your current university who is willing to write a reference for you. Please make sure you have asked the member of staff to be your referee before filling in the UCAS form.

Your referee will be contacted by email and asked to write a reference for you on the UCAS system. They will need to comment on your academic performance in your university studies so far.
PAY/SEND

Once you have checked all the details, you will need to pay the UCAS fee and submit your application.

The UCAS system accepts UK and international Visa, Visa Debit, Delta, MasterCard, JCB, Maestro, and Electron.

QUESTIONS?

If you have questions about how to fill out the UCAS application form you are welcome to contact:
