Future Actions for the project in Europe

How:

- ❖ Encourage ongoing and new Networking opportunities (membership or MoUs)
- ❖ Virtual Meetings, their Pros outweigh the Cons. Let's use and expand our capabilities.

What:

- ❖ We have identified the main success factor for a higher participation: it works where you find university policies and programmes with significant funding. This will need broad support on EU and national level.
- ❖ Support Ukrainian Women in Science in their struggle for survival.
