

Fluid Dynamics Seminar

Fluid Dynamics Research Centre

University of Warwick

Autumn Term 2007

Unless indicated otherwise all seminars are on

Wednesdays 4:15 pm

in

Room A206a, School of Engineering

- 24th Oct.** **Experiments on Free-Surface Turbulence**
Dr. Ralph Savelsberg (*School of Engineering Sciences, University of Southampton*)
- 31st Oct.** **Convection, Degassing and Rheology of Crystal-Rich Magma**
Dr. Alison Rust (*Department of Earth Sciences, University of Bristol*)
- 7th Nov.** **The Thermofluid Dynamics of Cities**
Prof. Rex Britter (*Department of Engineering, University of Cambridge*)
- 14th Nov.** **Animal Flight: 3D Kinematics, Morphing Wings and High Lift Aerodynamics**
Dr. Adrian L.R. Thomas (*Department of Zoology, University of Oxford*)
- 20st Nov.** **Thermally-Driven Vortices in a Rotating Fluid**
(Tuesday!!) Prof. GertJan van Heijst (*Eindhoven University of Technology, Department of Applied Physics, Eindhoven, The Netherlands*)
- 28th Nov.** **Blood Flow and Blood-Flow Machines**
Dr. Geoff Tansley (*School of Mechanical Materials and Manufacturing Engineering, University of Nottingham*)
- 5th Dec.** **Post-Graduate Student Colloquium** (Separate program to be issued)
(approx. 2:00-5:30pm)

Further Info : Dr. Peter J. Thomas (School of Engineering, ext. 22200, email: eddk@eng.warwick.ac.uk program and latest updates also available at <http://www.eng.warwick.ac.uk/staff/pjt/seminars>).

NOTE: Additional seminars may be added to program during term! Check for updates of program on our WWW seminar page. Alternatively have your name/email address added to our email distribution list for seminar announcements - contact Dr. Thomas concerning this.
