2D	<p>Good Ideas and Presentation skills. Communicated Ideas well and clearly thought through the system in detail.</p> <p>However many system modules need to be worn which appeared quite big and intrusive. required to be changed and installed by user regularly reducing the Automation of the system. Installation not thought through and too many slides</p>	8

2D	<p>- Excellent presenter</p> <p>- lots of arguments.</p> <p>- Very well prepared</p> <p><u>Negatives</u></p> <p>- Too many slides it was hard to be 1</p> <p>- Lots of devices with no deep thought in future.</p> <p>- Some devices not necessary.</p>		7

2D	<p>EXcellent. Very broad, comprehensive. Modular system for different price ranges</p>	10
----	--	----

2D	<p>Great presentation</p> <p>lots of products - less detailed</p> <p>Didn't outline the base minimum</p>	8
----	--	---

2D	<p>+ good amount of system</p> <p>+ realistic design but big changes involved</p> <p>- many systems required input from elderly person and had to be worn</p>	8
----	---	---

2D	<p>UI, how much the person needs.</p> <p>most components already available. Too much to remember</p>
