1. Feedback from Cohort 2

- No feedback from cohort 2

2. Feedback from Cohort 3

- No feedback from cohort 3

3. Feedback from Cohort 4

- No feedback from cohort 4.

4. Feedback from Cohort 5

- Broadly the feedback from the cohort is pretty good
- Only one issue with regards to marking. Cohort 5 are still waiting to hear about a mark from one of their PX911 workshops last term. Mentioned a possible issue with the automatic grader.
- The cohort have been generally satisfied with the modules and teaching this term with the solids course (PX912) and the UQ module (PX914).
- Feedback from these modules stated that the attendance had been very good and that the workload was acceptable to manage and didn't cause too much stress.
- Similar feedback was given for the optional modules.
- The cohort are getting prepared for the group project and mentioned they have had initial meetings with their academic mentor.
- The cohort have also been interacting with their various supervisors. Mainly discussing hetsys work and planning for the individual summer projects, after the group project.

5. Any other Business

- Brief mention of the upcoming industry days in April

Next meeting

- Aim to book a meeting next term soon to avoid clashing with conferences and holidays etc.
