Dear Offer Holder

Welcome to our February Newsletter. Congratulations on your offer to study on one of our MSc programmes. We hope to welcome you as a student here at Warwick in October. We’re very proud to say that our School has been ranked 5th in the UK for Bioscience (Guardian University League Tables 2018).

Do you have a question? Try looking at the ‘Frequently asked Questions’ on our web pages. Alternatively, contact us via email (msc.lifesciences@warwick.ac.uk) or contact your regional agent.

Why not come and visit us on an Open Day? It will be busy so please book. If you can’t make the trip to Warwick then you can visit our Online Open Day to find out whether studying here might suit you.

Best wishes from the Taught Masters Team - Katie Baker, Denny Croft & Therese Lepicard

It was great to see our 2016/17 Masters students graduate on 17 January. They join a growing band of alumni who have secured an impressive range of jobs. More information can be found at Biotechnology & Business Management career destinations.

Current students enjoying our Christmas Mince Pie Mingle and getting competitive with giant Jenga.
The course provides an in depth look at agronomy and also how it links into food security and the demands on global food production. We spent many days out in the field with a highly experienced independent agronomist. Warwick is a highly reputable university with a fantastic range of facilities and has a great student atmosphere. The best thing about the course were the lecturers, with each one having a real passion for their area of expertise.

The University has a whole host of connections with agricultural contacts. Networking for me was a very useful way of gaining contacts within industry particularly when applying for job opportunities.”

Meet our graduates - Harry Tricklebank
Harry graduated from the MSc in Sustainable Crop Production: Agronomy for the 21st Century in 2015. He is currently working as an agronomist at Natures Crops International.

MSc Food Security

NEW MODULE! Postgraduate Taught Skills 101
Alongside our well-established student support programme, which includes language classes, writing mentors and personal tutors, new for this academic year is an optional module designed to help students explore their own development needs and improve their working methods. Designated skills mentors work with students in small groups on topics which include Delivering Presentations, Working in Groups and Careers Planning. All topics are designed to not only help students improve in their assessed work, but also to gain vital transferable skills so necessary in the job market.
