

Fractional Flows Workshop ***18 & 19 September 2008***

Organisers: N. Jacob (Swansea) & V. Kolokoltsov (Warwick)

To be held at the Mathematics Institute, Zeeman Building, University of Warwick

The Workshop will concentrate on the question to which extent fractional calculus can be used in modelling real world problems, including problems related to fluid dynamics. We will have presentations on current research including talks by

T. Biler (Wroclaw)

J. Levy-Vehel (INIRA, Paris)

F. Mainardi (Bologna)

M. Meerschaert (Michigan State University)

S. Samko (Universidade do Algarve)

R. Schilling (Dresden)

N. Watkins (BAS, Cambridge)

J.L. Wu (Swansea)

A further major objective of the meeting is to discuss possibilities to establish closer collaboration in the future.

For further information on these and other events see:
