

Warwick Evidence Staff

■ Current Staff ■ New Starters □ Leavers

Warwick Evidence

Staff - Speciality:

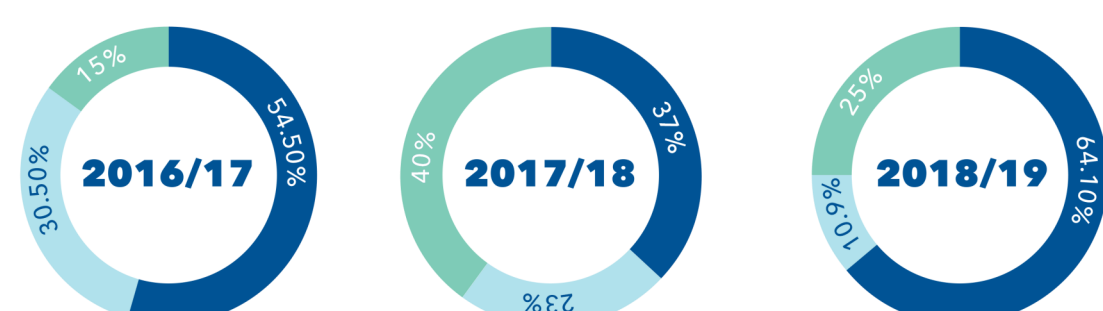

We support a well-balanced team with experts from **4** disciplines:

- clinical effectiveness reviewers
- health economists
- statisticians
- information scientists

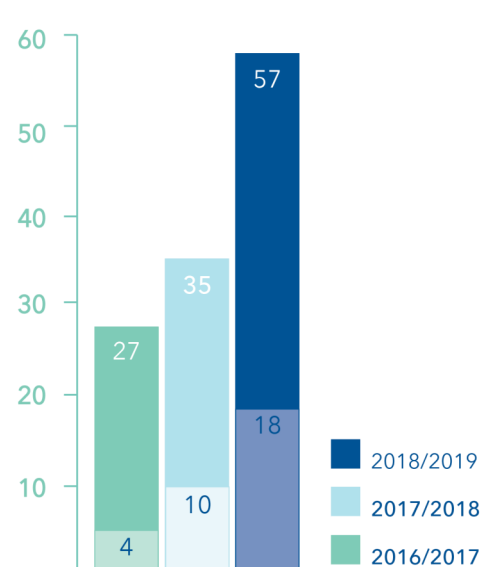

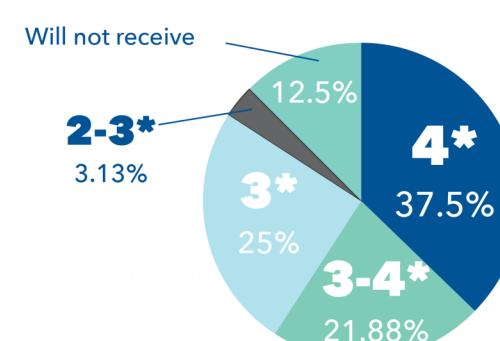

Project Allocation

■ STA / FTA / CDF review
■ MTA / DAR
■ Not Allocated

Quality Assessment (TARQUA)

Despite other ongoing research, Warwick Evidence's performance on the core work remains high - **84%** of feedback we received was rated **3* and above**.

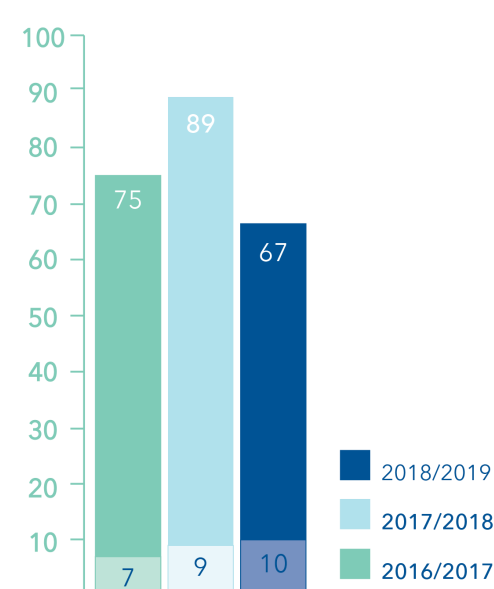

Grant Numbers per Year

■ Grants with Warwick Evidence staff as PI

Our researchers are actively encouraged to develop their interests and strengths. In 2018 Warwick Evidence staff held **18 grants as PI**, and were **co-applicants of another 39**.

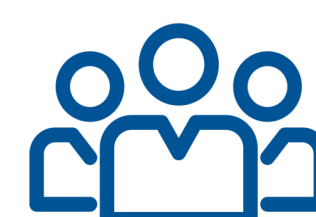

Publications

■ Resulted in/directly from TAR work

The team is exploring options to publish from **core work**, but the majority of publications result from **other grant work**.

Staff members visited **25** different courses in 2018/19.

Team Development

Connections -

We are working with a large number of stakeholders and are expanding collaborations within WMS and the University.

We support the development of a hub for information specialists and are in close collaboration with the new Centre of Health Economics.
