RECRUITMENT UPDATE

KUDOS

Well done to the team at Russells Hall for their exceptional work.

The team have successfully recruited 3 participants in under 1 week!

Keep up the good work!

Milestone Completion

We would like to say well done to all our sites for helping the trial to reach another major milestone. With 920 participants recruited we are now a third of the way to our recruitment target.

Congratulations to Belfast for hitting this milestone and all our sites for your ongoing efforts and contributions. We look forward to passing 1,000 patients very soon!

The trial is continuing to expand to further centres with York, King's College and Russells Hall joining us in recent weeks. We also look forward to hosting our cross-trial consent workshops in March. Please get in touch if you are interested in attending.
