IRAS project ID: 134352
Mammographic surveillance in breast cancer patients aged 50 years or older
MAMMO-50

DATA TRANSPARENCY STATEMENT

University Hospitals Coventry and Warwickshire NHS Trust and The University of Warwick are the sponsors for this study based in the United Kingdom. The University of Warwick will be using information from you and your medical records in order to undertake this study and will act as the data controller for this study. This means that we are responsible for looking after your information and using it properly. The sponsors will keep identifiable information about you at least five years after completion of the trial.

Your rights to access, change or move your information are limited, as we need to manage your information in specific ways in order for the research to be reliable and accurate. If you withdraw from the study, we will keep the information about you that we have already obtained. To safeguard your rights, we will use the minimum personally-identifiable information possible.

You can find out more about how we use your information here:
https://warwick.ac.uk/services/idc/dataprotection/privacynotices/researchprivacynotice

Your NHS Hospital will collect information from you and your medical records for this research study in accordance with our instructions.

Your NHS Hospital will use your NHS number, hospital number and contact details to contact you about the research study, and make sure that relevant information about the study is recorded for your care, and to oversee the quality of the study. Individuals from University Hospitals Coventry and Warwickshire NHS Trust, The University of Warwick and regulatory organisations may look at your medical and research records to check the accuracy of the research study. Your NHS Hospital will pass these details to the sponsors on your behalf along with the information collected from you and your medical records. The people who analyse the information will not be able to identify you and will not be able to find out your name, NHS number, hospital number or contact details.

The University of Warwick will have access to information that identifies you only if you have given your permission to take part in the telephone interview-based qualitative sub-study and only to enable us to contact you to perform the telephone interviews. Following the interviews, your contact details will be removed from our system.
University Hospitals Coventry and Warwickshire NHS Trust and The University of Warwick will collect information about you for research purposes from NHS Digital, Office of National Statistics (ONS) and other relevant bodies to provide information about your health status. This information will include your initials, NHS number, hospital number, date of birth, ethnic origin and health information, which is regarded as a special category information. We will use this information to inform future mammographic surveillance regimes for patients over 50 years of age treated surgically with curative intent for invasive and non-invasive breast cancer.

Your NHS Hospital will keep identifiable information about you from this study at least five years after completion of the trial. When you agree to take part in a research study, the information about your health and care may be provided to researchers running other research studies in this organisation and in other organisations. These organisations may be universities, NHS organisations or companies involved in health and care research in this country or abroad. Your information will only be used by organisations and researchers to conduct research in accordance with the UK Policy Framework for Health and Social Care Research.

Your information could be used for research in any aspect of health or care, and could be combined with information about you from other sources held by researchers, the NHS or government.

Where this information could identify you, the information will be held securely with strict arrangements about who can access the information. The information will only be used for the purpose of health and care research, or to contact you about future opportunities to participate in research. It will not be used to make decisions about future services available to you, such as insurance.

Where there is a risk that you can be identified your data will only be used in research that has been independently reviewed by an ethics committee.
