REPAIR**MDS** 

Achievements

Thank you **Russell's Hall Hospital** for randomising 2 participants in February!

A **big welcome** to **UCLH** who opened to recruitment Friday 11th March!

Site Set-up

Site set-up is progressing across the UK with several sites having had their Site Initiation Visits via MS Teams.

We are sure that we will have more sites opening soon so watch this space!

If your site needs the Local Information Pack, any documentation, have any questions or want to update us on progress, please drop us an email or give us a call and we will be happy to help!

Thank you!

Update on Trial Documents

Site Agreement/mCNA

For those who haven't signed the mCNA:

Please make sure you are using the most recent version dated December 2021.

The correct version is attached to the email.

What changed?

Changes were only to delegated responsibilities between co-sponsors - no impact on site responsibilities

Watch out! New Samples Manual

A new version of the samples manual (version 2.0) will be circulated in the upcoming month. Please keep using version 1.0 in the meantime.

What will change?

There are no major process changes - just a few clarifications around what sample analysis should be performed throughout the trial.
