Subject: RE: SIS _ IRAS ID _ 316755
Importance: Normal
Sensitivity: None

Dear Christina,

Thank you for your email.

I can NSA05 on our records, and as it was non-substantial no study wide review amendment, the automated email you receive is the approval for the amendment, and the amendment can be implemented in accordance to the categorisation information on the tool.

Kind regards,

Syeda

You don't often get email from christina.ryan@warwick.ac.uk. [Learn why this is important](#)

Dear team, we recently submitted a non-substantial amendment for our Trial

SIS

IRAS ID _ 316755

We received the attached confirmation; however, I have just gone in to submit another amendment and I can't see this one showing in the list and I also noticed that the email we received was just an acknowledgement mail and not an approval email as we first thought (this was just an amendment for addition of a new site, so usually gets approved automatically).

Dashboard

IRAS ID	Amendment ID	Sponsor amendment reference	Status of amendment	Submission date
316755	EA-66987	NSA04	Submitted	08/08/2023
316755	EA-65284	NSA03	Submitted	06/07/2023
316755	EA-62018	NSA02	Submitted	05/05/2023
316755	EA-57963	AM001	Submitted	16/02/2023

I'm not sure what has gone wrong here and was wondering if you can confirm if you can see the amendment your end or if we need to re-submit it?

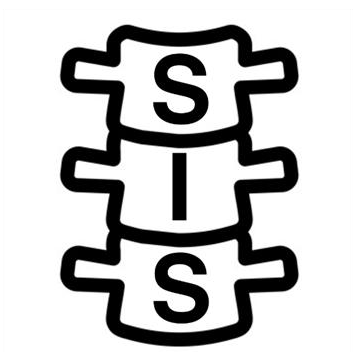

Thank you

Christina Ryan
