

Which instructions should I use?

Windows

See the screenshots below, which show the different recording interfaces in PowerPoint. Using the “**Record Slide Show**” button compare what you see with below and choose the appropriate help guides.

1. Interface with small recording bar, top left. Use “**Windows Older**” instructions.

2. Interface with larger recording buttons at the top. Use “**Windows Newer**” instructions.

3. There is currently only one guide for MacOS.
