17 The best features of this module were:

Respondent	Response
	I liked the way the lecturer presented the module. His explanation was clear.
	Very interesting topic and the pacing of lectures was very good. Reviews at the end of each lecture were helpful. Diagrams pictures and videos helped with understanding
	Live events very well structured. Interesting applications which makes the module enjoyable to learn.
	The very clear set of notes and well structured lectures.
	Clear presentation of concepts. Interesting content.
	Well explained topics and well structured module
	Bernoulli's equation
	All of it! The diagrams help a lot. The style of notes was very good.
	Interesting content
	The lectures were well delivered.
	Very interesting material and it was explained well so made me want to learn more about the topic.
	The lecturer was very good

Respondent	Response
	It was very interesting and it was good to get real life videos of what we learnt at the end of the module
	The mathematical derivations were very thorough and I really enjoyed seeing what happens at each step of the process.
	I really enjoyed the irrotational flow part of the module and the circulation and drift section
Total responses to question	15/26

18 Any particular aspects/items needing improvement (and suggestions how):

Respondent	Response
	Perhaps more example questions
	The problem sheets were quite easy and sometimes I feel didnt properly test my understanding.
	The notes from the lectures. While short hand is mostly fine, sometimes omitting words and punctuation (like commas) from the written notes to make the notes shorter means the meaning of the sentences is unclear, especially for key definitions. Watching the lectures makes them more understandable but not always.
	No.
	Some more formal questions on the topic would've been nice, alongside a set of lecture notes.
	Go through more questions in the live sessions. These were very helpful.
	Possibly more not for credit online tests
	N/A

19 Any other comments:

Respondent	Response
	Overall, very good module
	Thank you!
	My favourite module, lots of interesting new concepts.
	Tony is a Legend.
	Recommended to anybody!
	Really enjoyed the module!!
