PX370 - Module Feedback

Thank you for submitting your feedback on this module - the results will be collated and the information viewed by the module leader and the Education Committee and can help to improve the experience of students taking this module in future.

1 I watched or read through the notes of (...?...) of the online lecture material

Response	Average	Total
>80%	100%	4
Total responses to question	100%	4/4

2 I attended (...?...) of the Live events for this module

Response	Average	Total
Most	75%	3
None	25%	1
Total responses to question	100%	4/4

3 The quantity of material was...

Response	Average	Total
About right	100%	4
Total responses to question	100%	4/4

4 By the end of the module its purpose and direction were...

Response	Average	Total
Clear	75%	3
Hazy	25%	1
Total responses to question	100%	4/4

5 Explanation of new terms and concepts was...

Response	Average	Total
Good	100%	4
Total responses to question	100%	4/4

6. I have a (...?...) set of notes

Response	Average	Total
Good	75%	3
Adequate	25%	1
Total responses to question	100%	4/4

7. I attempted (...?...) of examples sheet questions

Response	Average	Total
<40%	33%	1
40-50%	67%	2
Total responses to question	75%	3/4

8. The examples sheet questions were...

Response	Average	Total
About Right	100%	2
Total responses to question	50%	2/4

9. Promptness of feedback on submitted coursework was...

No responses for this question.

10. Would you like a course taking this subject further ?

Response	Average	Total
Yes	50%	2
Neutral	50%	2
Total responses to question	100%	4/4

11. Did you use any of the recommended/suggested textbooks?

Response	Average	Total
Yes - consulted	50%	2
No	50%	2
Total responses to question	100%	4/4

12. I found the textbook(s) used to be...

Response	Average	Total
Helpful	67%	2
I did not use a textbook	33%	1
Total responses to question	75%	3/4

I understood the following main topics

13 Lasers

Response	Average	Total
First time through lectures or online notes	75%	3
After more work	25%	1
Total responses to question	100%	4/4

14 Electra-optic modular

Response	Average	Total
First time through lectures or online notes	100%	4
Total responses to question	100%	4/4

15 Nonlinear optics

Response	Average	Total
First time through lectures or online notes	50%	2
After more work	50%	2
Total responses to question	100%	4/4

16 Photo detection

Response	Average	Total
First time through lectures or online notes	75%	3
After more work	25%	1
Total responses to question	100%	4/4

17 The best features of this module were:

Respondent	Response
	Interesting content and clear explanations. I enjoyed seeing a laser device (even if it wasn't in person).

Respondent	Response
	Excellent, clear explanations of new concepts. Videos were well made and easy to use/understand. Lectures were made interesting as well as informative.
	I really liked first half of the content about laser operation principles
	The teaching quality was great. Very clear explanations of new and familiar concepts really engaged me, as an auditory learner. The real world examples solidified the importance of results and helped me develop a deeper understanding. Overall, I really enjoyed the module. It was unfortunate about the timing with the final report for BSc students like myself, as I did not have enough time to focus on lectures.

Total responses to question	4/4

18   Any particular aspects/items needing improvement (and suggestions how):

Respondent	Response
	While I edited the handouts on a tablet and was able to make notes that way, without access to one I would have struggled to make notes: trying to copy out the handout without access to a printer, then making notes on top of that.
	N/A
	I would prefer to explore more concepts about light properties instead of going into very fine details about opto-electronic equipment, it was interesting to learn how they work but maybe a bit less emphasis on maths and noise as they are very specific and not as transferable?
	Much of the video lecture material was too fast to follow naturally and I, personally, had to pause quite often to write things down. This harmed the flow of the lecture and significantly lengthened the amount of time I spent doing the lectures. I feel like it was unnecessary to edit so much, like speeding up the note-writing or cutting to places etc.

Total responses to question	4/4

19   Any other comments:

Respondent	Response
	Really enjoyed, thanks Steve!
	Thank you very much, a great module 😊

Total responses to question	2/4
