The best features of this module were:

- Val's lecturing
- Videos with hand written notes were very clear and understandable
- Very clear set of notes
- Interesting subject matter

Any particular aspects/items needing improvement (and suggestions how):

- N/A
- More writing to accompany the powerpoint slides in lecture 1/2 would have been useful
- The live lectures could be more interactive

Any other comments:

- Thank you :)
- Some symbols such as u , v , V and nu along with M and μ were hard to distinguish in the written notes.
