	Interesting subject.
	I liked how the module had a clear structure and that the different topics were all interlinked. I also liked the research aspect of the module i.e. the required papers and the content which referred directly to what researchers do in this area. The fact that some of the videos were written on paper was also a bonus for me.

19 Any particular aspects/items needing improvement (and suggestions how):

Respondent	Response
	In person lectures (I know that's not your fault!)
	I found that some of the sections where it was only text and no videos took me much longer to understand and take notes for than the ones with videos. Perhaps these could have been made into videos?
