Call for Nominations

The Institute of Physics (IOP) is looking for enthusiastic members to encourage grassroots physics in your local area. With nominations to the IOP West Midlands Committee now open – you too have the chance to positively change the way people think about physics.

As an IOP West Midlands committee member you will be actively involved in organising the branches annual activities programme. This includes the public lecture series, schools and public outreach events, as well as student careers evenings and much more. The branch is particularly seeking nominations from those who have fresh ideas or able to facilitate branch centre activities (vacancies in Coventry & Warwickshire, Wolverhampton, Staffordshire and Shropshire); promote the branch via social media and a newsletter; and organise careers, social events and visits for members. It is our wish that the new committee will take immediate effect on completion of the election process.

The branch has opened nominations to the following committee positions:

Chair
Secretary
Eight ordinary members

If you would like more information on the committee, its purpose and core functions, the election process and the logistics of being a member please read the West Midlands Committee information document.

If you are interested in this opportunity please submit a nomination form by midnight on the 21 November 2017. If you have any questions please email john.beale@physics.org.
