

PLATO Mission Consortium Membership and Non-Disclosure Agreement

Dear colleague,

Thank you for your interest in being/becoming a member of the PLATO Mission Consortium (PMC) (in the following called in short: "PLATO Team"). Please complete and sign this form and email it to your respective national PMC Board member (check out <https://platomission.com>) and the Office (plato-consortium@dlr.de) so that we can provide you with regular and relevant information.

When you sign this document, you agree with the following policy:

PLATO Team Membership

PLATO Team membership is offered to residents of countries with significant contributions to the development of the PLATO Mission Consortium (to PLATO Payload (PP), PLATO Data Center (PDC), or PLATO Science Management (PSM)). Possible exceptions for individuals who make significant contributions but are resident outside these countries are discussed on an individual basis with the PI and the PMC Board.

An overview of memberships in each country is maintained by the respective representative in the PLATO Board and the PLATO Office. PLATO team membership will be reviewed by the PLATO Board periodically to check if the conditions for membership still apply.

Team members need to inform the Board and the PLATO Office if they change their institute affiliation.

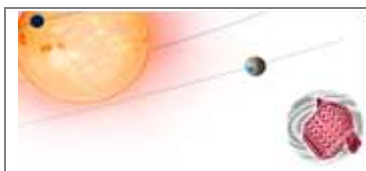

Non-Disclosure Agreement

As a member of the PLATO Mission Consortium (PLATO Team), the individual agrees to maintain confidentiality of PMC internal documents, information, and PLATO non-public data & databases.

Publication Policy

PLATO team members follow the publication policy as detailed in the PLATO Science Management Plan (ESA/SPC(2017)33) and as specified by the publication policy of the PLATO Mission Consortium (PLATO-DLR-MAN-PLN-0004).

Non-compliance to the above policies will result in exclusion from the PLATO Consortium.

PLATO Mission Consortium Membership and Non-Disclosure Agreement

Individual's information:

First name

Last name

E-mail

Affiliation

Address

Country

I will contribute to the PLATO Mission in the area of:

☐ Payload Development (PP)

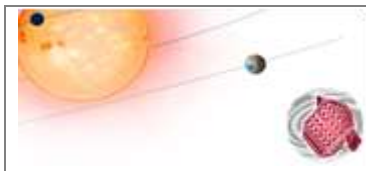

☐ PMC Data Centre (PDC)

☐ Core Science (PSM)

Please provide a short text about yourself and your contribution to PLATO:

Field of expertise,
professional
background
(max. 10 lines, keyword
list allowed)

Work Package No. and
short abstract of your
envisaged contribution
(indicate whether you
are WP leader or
contributor)
