

Supported by the International Research Staff Exchange Scheme of the Seventh Framework Programme of the European Union (FP7-IRSES-295272-RADIOSUN)

THE UNIVERSITY OF
WARWICK

The 4th RadioSun Workshop and Summer School

- MHD oscillations in solar magnetic structures
- Wave dynamics and flare activity
- Quasi-periodic pulsations (QPP) in solar flares
- Flaring energy release: from magnetic fields to particles and waves
- CMEs and waves in space plasma
- Advanced techniques for wave detection
- New instruments for space research

Information and applications: <http://warwick.ac.uk/radiosun4>

LOC:

Robert Sych, Chair
Alexey Kuznetsov
Larisa Kashapova
Sergey Anfinogentov
Andrey Afanas'ev
Ekaterina Korzhova

SOC:

David Pascoe, Chair (UK)
Valery Nakariakov, PI (UK)
Eduard Kontar (UK)
Viktor Melnikov (Russia)
Hana Meszarosova (Czech Rep.)
Robert Sych (Russia)
Baolin Tan (China)
Yan Yihua (China)

**Institute of Solar-Terrestrial Physics
Irkutsk, Russia
June 8 – 12, 2015**
