- Simply by being you
- By knowing yourself and articulating your skills and experiences
- Have you considered what is important to you?
- What do you need from a career?
- There are so many choices out there, what do you know?
- ‘A survey by Universum found that 58% of leading employers value work experience among graduates more than grades or the name of their university’

I know what to do

Great – time to build your network and quickly

Know who you are

Consider your personal brand (values, motivations and goals)

Check out events and meet recruiters

Polish your LinkedIn account and join groups

Consider the Warwick Award to help you reflect and add value to your CV

But I DON'T know what to do

Its ok – you chose the degree because of the subject now think about

What did you enjoy?

What did you not like?

What do you know about the previous grads/ alums have done ?
