

Welcome Week

Online Treasure Hunt

Explore our digital platforms
Win prizes for the first 20 who find
them all.

We want you to
find the
following...

1. Find the 1st year Undergraduate Teams Group - leave a comment or some emojis - what describes you as a person?

2. Send an email to your Personal Tutor (whose name you'll be able to see on Tabula). Introduce yourself & tell them something interesting about yourself... (this can be a fun fact, something you've achieved, something unusual, or even just the name of your favourite tortoise).

3. There is a picture of an Alpaca (we have them visit the Department sometimes...) in one of the 1st year Moodle pages. Can you find it? Take a screen shot!

4. Locate our Current Student Department Website. How many egg icons can you find? 🥚

5. Now try and find the following information:

- What is your first lecture in week 1?
- What is your first assignment and when is it due?
- What is your last monitoring point in Term one?
- What are the names of our Senior Tutors?
- What are the names of our DSEPs?

Add all the answers to a word document, then upload this document to Tabula.

You will find an assignment called "Welcome Week Treasure Hunt"

This is open until Friday 27th at 12 noon - the first 20 submissions that are ALL CORRECT will get prizes 😊
