Outstanding Student Contribution Awards 2022

Nominations for the Outstanding Student Contribution Awards (OSCA) 2022 are now open and will close on Sunday 15th May 2022. All members of the Warwick community – staff and students – can nominate final-year students for an Award. Winners will be chosen based on the statement provided and will be presented with their award during their degree ceremony.

OSCA's aim to recognise the outstanding contributions of Warwick students, outside of their academic achievements, and we feel that you are well placed to be able to identify and nominate students who have made such contributions.

Warwick's students are amongst the most active in the country. Some of our students are truly exceptional, excelling academically, whilst also contributing significantly to the University community, volunteering on or off campus, starting their own business or contributing to the University's internationalisation agenda whether through a long-term commitment, a one-off project or anything in between.

Any student in the final year of their studies (undergraduate and postgraduate) can be nominated for an award by completing the online nomination form at www.warwick.ac.uk/osca. The website gives further information about the awards scheme.

Please consider this as a way of recognising and rewarding the outstanding achievements and contributions of the students you know.

Pathways to Translation (P2T) event: NICE Guidance and Guidelines Thursday 7th April, 10.00 - 11.30

Full details [here](#).

REQUEST FOR POSTDOCTORAL RESEARCH PARTICIPANTS:

Dear postdoctoral researchers,

We are conducting interviews as part of a research study to investigate the challenges faced by postdoctoral researchers at this crucial stage of your careers. We would like to invite you to take part in these interviews to discuss being a postdoctoral researcher at the University of Warwick. The findings of our project will be submitted in a report as part of the UKRI's Enhancing Research Culture fund.

If you are interested in finding out more and potentially participating, please follow the Qualtrics link to the participant information leaflet. If you'd like to take part, you can fill out the consent form and we will contact you to arrange a meeting!

You can always contact me at Jacob.Barker@warwick.ac.uk if you have any questions!

Subject: ERSC DTP - Notices to Funded and Non-Funded PGR Students

The PhD Place

I am writing on behalf of ThePhDPlace, a new student initiative of the Midlands Graduate School Doctoral Training Partnership (MGS DTP). I am hoping you might be able to notify your PhD students about our exciting new online community!

Our aim is simple, to cultivate a space for PGRs based on friendship through listening to each other's experiences, stories, and advice. We do this through PhD Spotlight, a new space to celebrate the unique experiences of PGR students worldwide. Students are given the opportunity to share their stories through 1000-2000 word articles based on their experiences, and are encouraged to interact with other PGRs through our site. So far these articles have included student reflections on the first year of their PhD, as well as a walkthrough of PhD applications in the social sciences. We are excited to grow this space, make connections, and share more student experiences from PGRs around the world. We aim to create new online spaces in the future, and even have our sights set on an in-person event!

If any of your students would be interested in sharing their experiences with our community, please do ask them to get in touch via our website ThePhDPlace.com, or via email: nathhclarke@nottingham.ac.uk.

Best wishes,

Nath

Subject: Online Teaching and Learning survey

We are conducting research to find out how online teaching and learning has impacted on the mental health of students during the Corona virus pandemic.

If you feel you can help with this, please distribute this email to your students where they can find a link to our survey:

Subject: WMIP Climate Change conference REDUCED PRICE - final 10 DAYS - with speakers Sally Weintrobe, Rebecca Nestor and Judith Anderson

Importance: High

Dear Colleague

TICKET PRICE REDUCED for FINAL 10 DAYS – NOW JUST £70pp - GREAT VALUE FOR 3 SPEAKERS AND 6 HOURS OF CPD!

For more information and TO BOOK VISIT [Uncaring: What climate change can teach us about how we avoid pain Tickets, Sat 2 Apr 2022 at 10:00 | Eventbrite](#)

Psychoanalytic thinking and psychotherapy maintain a focus on the inner world, but the environmental crisis unfolding around us inevitably permeates the consulting room.

Don't miss this opportunity to consider this global issue from a psychological and therapeutic perspective, with three inspiring speakers.

SALLY WEINTROBE ~ CARE AND ITS SURVIVAL IN INCREASINGLY UNBEARABLE TIMES Care is both resurgent and under increasing attack from the dominant culture of uncaring. Also, as the climate crisis worsens, bearing climate reality becomes harder. Sally will explore what can make care stronger in this situation.

REBECCA NESTOR ~ THE TICKING CLOCK THING: Trauma-infused social defences in climate change communication

In this talk Rebecca will share insights from her doctoral research with leaders involved in climate change communication. The study explored the nature of leaders' experience and found it to be trauma-influenced epistemologically, socially and emotionally. Rebecca explores these three strands of experience, the ways in which they influenced organisational behaviour and the steps that could be taken to support people working in climate change communication and related fields. How does trauma scholarship help us to consider the nature of the support required?

JUDITH ANDERSON ~ STANDING IN OUR PAIN – CLIMATE CRISIS AND THE THERAPIST Judith will describe ways of being and methods that members of Climate Psychology Alliance and others are developing to play a crucial part in facing the triple crises of climate, biodiversity and ecology.

We look forward to welcoming you on Saturday 2nd April.
