Cost of living support

As part of our package of support with the cost of living, you can now access our new free online financial hub. You'll find tips, tools and expert advice on budgeting, mortgages, financial fitness test, savings, pensions and more. We've partnered with an external organisation, and tools, videos and webinars are available when it suits you. Don't forget, you can also find details of all the support available on our cost of living pages.

KINDNESS ON CAMPUS AWARDS 2022

Ahead of World Kindness Day, the Community Values Education Programme are running the Kindness on Campus Awards. Share your stories of acts of kindness and allyship and nominate staff or students you think deserve a Kindness on Campus award, before 30 November, to be in with a chance of winning one of three Love2shop £20 vouchers.

EVENTS

22/23 LANGUAGE & LEARNING SEMINARS

23/11/2022, 12pm-1pm	**Saloni Krishnan**	Reader, Royal Holloway, University of London
07/12/2022, 12pm-1pm	**Giulia Bovolenta**	Research associate, University of York
11/01/2023, 12pm-1pm	TBD	/
01/02/2023, 12pm-1pm	Joost Rommers	Lecturer, University of Aberdeen
15/03/2023, 12pm-1pm	Cornelia Ebert	Professor, Goethe University of Frankfurt

Warwick Applied Linguistics @WarwickAppLing · 2h
On Wed 23 November 4-5pm it's our final #AppliedLinguisticsseminar this term! @sal_consoli will present "Life Capital: a novel lens for Language Education Research"

EDUCATION FORUM: TERM ONE MEETING

Sign up for the next Education Forum on Wednesday 23 November. This is a cross-disciplinary space for teaching-focused colleagues to discuss teaching and learning issues, build a collective and community-based voice, and influence Warwick policy and practice. View the Forum webpage for more details.

PRODUCTIVITY & THE FUTURES OF WORK GRP SEMINAR

Hear from Dr Rupy Sawhney on "Becoming a Global Compassionate Servant Leader - Alignment Between Productivity and Retention Levels" on Thursday 10 November. Find out more here.

TWO TRUTHS IN ONE LAND: THE ROAD TO RECONCILIATION

In the context of our broader work around social inclusion and community values, we have been given the opportunity to host an online event on 22 November led by an organisation called Roots. Hear from Roots' Israeli co-founder, Rabbi Hanan Schlesinger and Roots' activist Palestinian Noor A'wad as they share their experiences and insights into how they started to build trust between communities, change attitudes, and create a shared purpose between two often deeply divided groups. Find out more and register.

Health Sciences Seminar Series
via Teams at 12:00 and in room A042, Warwick Medical School

Professor Bhramar Mukerjee
Using Electronic Health Records for Scientific Research:
Promises and Perils

Professor Bhramar Mukerjee
Bhramar Mukerjee is the John D. Kalbfleisch Collegiate Professor and chair of the Department of Biostatistics at the University of Michigan School of Public Health. She is also a professor in the Department of Epidemiology and a professor of Global Public Health at the School of Public Health.

Mukerjee's research focuses on the development and application of statistical methods in epidemiology, environmental health, cancer research and disease risk assessment. She has authored more than 340 publications in statistics, biostatistics, epidemiology and medical journals and has led several impactful extramural grants as a principal investigator from both the NSF and the NIH.

Dedicated to diversifying the statistical and data science workforce, Mukerjee has been leading a flagship undergraduate summer program in Big Data since 2015. This program has trained nearly 300 undergraduates, more than 60% of whom go on to pursue graduate school in a quantitative field. She is a fellow of the American Statistical Association and the American Association for the Advancement of Science. She is recipient of many awards, including the Janet Norwood Award and the Sarah Goddard Power award in 2021. In 2022, she was elected to the National Academy of Medicine, one of the highest honors for researchers in health and medicine

Using Electronic Health Records for Scientific Research: Promises and Perils
Electronic Health Records (EHR) linked with other auxiliary data sources hold tremendous potential for conducting real time actionable research. However, one has to answer two fundamental questions before conducting inference: "Who is in my study?" and "What is the target population of Inference?". Without accounting for selection bias, one can quickly produce rapid but inaccurate conclusions. In this talk, I will discuss a statistical framework for jointly considering selection bias and phenotype misclassification in analyzing EHR data. Examples will include genome and phenome-wide association studies of Cancer and COVID-19 outcomes using data from the Michigan Genomics initiative and the UK Biobank. This is joint work with Lars Fritsche, Lauren Beesley and Maxwell Salvatore at the University of Michigan School of Public Health.

Professor Bhramar Mukerjee

New spaces in the Library
To help students and staff to work together and to improve the university experience, we've opened new spaces in the Library - a Co-creation Space for students and staff to work together, plus the Breathing Space to support student wellbeing. Lib 1 study space is also now managed by the Library.

Student Feedback Survey

The Student Feedback Survey will be going live on **Monday 21 November**, running until Sunday 4 December. The survey is a joint University and Students' Union (SU) Survey, replacing the SU PULSE and University Termly Surveys. The survey will run in Term 1 and Term 3, and will include questions about student experience during the term.

More information will be available on this page

The results of the survey will be shared with academic departments in the new year.

RESEARCH

For current Internal funding Opportunities, see Research & Impact [website](#).

- The **Research Development Fund** (Strategic Awards) is open for bids for projects that will take place between 01 August 2022 and 31 July 2023.

- The **Humanities Research Fund (HRF)Link opens in a new window** is available to Faculty of Arts staff for research-related expenses and conference travel. In certain circumstances, research students in the Faculty of Arts are also eligible to apply.
- **EPSRC Impact Acceleration Account (IAA)**: A scheme to help pioneering scientists and engineers create successful businesses from their research, improve industrial collaboration and foster greater entrepreneurship

- **Warwick-Wellcome Translational Partnership** offers **Translation and Innovation Grants** to provide project-focussed pump priming awards to support the movement of research ideas along the translational development spectrum and/or move to the next technology readiness level. Applications to buy out UHCW clinician's time for a translational project would also be welcome. It is anticipated that 4-5 awards will be made.

- **Breaking Translational Barriers Awards** provide smaller awards of up to £10,000 to access bespoke external expertise and advice on the potential of the idea or technology and overcome well-defined barriers, for example engaging end users and networks, commissioning market research analyses and exploring routes to market to progress their research along the translational pipeline. The Breaking Translational Barriers Awards will not fund Warwick staff time. Contact **Wellcome-Translation@warwick.ac.uk** to find out more.

For current funding Opportunities, see Research & Impact [website](#).

Current External Funding Opportunities

- **Research Professional** - Funding resource where you can search for and save funding opportunities as well as set-up funding alerts. View saved **funding opportunities**Link opens in a new window
- **Browse funding opportunities** and news from Research Councils UK and other key funders.

- **Horizon 2020** - find out about EU funding opportunities for your research or innovation project.

- **Researchers with caring responsibilities: Research Council support**

REF: journal articles and conference contributions guidance
Read about the policy on Open Access for the next Research Excellence Framework (REF) process. To be eligible for inclusion for the REF, journal articles and conference contributions must be deposited into a repository. The University's policy is that all outputs should be deposited in our institutional repository, WRAP, so make sure you plan ahead for your next publications and get support from the Library. [Find out more](#).

RESEARCHER DEVELOPMENT PROGRAMME

When you have chance, please also check the refreshed RD webpages which provides multiple resources to support your Researcher Development (warwick.ac.uk) and be aware that we release all workshop information via our RDO Teams site https://tinyurl.com/Researcher-Development-Online. We can be found on Twitter @warwickrssp.

Wed 23 Nov '22
9am - 12pm:
MANAGING COMPLEX RESEARCH PROJECTS PART 1

1:30pm - 4:30pm:
CHALLENGING INAPPROPRIATE BEHAVIOUR IN RESEARCH

CALL FOR NOMINATIONS FOR YELLOW RESEARCH ERC STARTING AND CONSOLIDATOR GRANT TRAINING: DEADLINE 29 NOVEMBER 2022

See email from Adam Sanborn 17-11-22. Note there will be a Departmental selectin process after the closing date if the scheme is oversubscribed. Training dates: Tuesday 28 March 2023 (am) and Thursday 30 March 2023 (am). Depending on the overall number of nominations received, we will either, by the end of w/c 28 Nov: 1) confirm final attendees or 2) confirm that a departmental selection process applies and the max. number of nominations per department.

CALL FOR PROJECTS FOR THE WELLCOME TRUST FUNDED DTP

I am emailing as we are advertising a call for supervisors to propose a project for the Wellcome Trust funded DTP – the Midlands Mental Health and Neuroscience PhD Programme for Healthcare Professionals. Details here.

Closing date: 24 Nov

Research participation and volunteering

Support the local communities and research centres at Warwick. Take a look at the Volunteer and Research Participation forum to share and receive interesting opportunities to get involved. Current opportunities include the WITHIN study, looking for volunteers aged 18-65 with chronic pain.

Research support in Bioinformatics

This is a potentially really useful research support service in Bioinformatics. They are offering weekly consultations (clinics) for researchers in all departments on research-related issues. These include programming, modelling (statistical or computational), server access, new technologies etc. If you are thinking about building an app or a website for a research project, for example, they have people who can help you build it. I wish we had something like this in-house, but these guys are really nice and helpful. I have had a few meetings with them about online language games, their scope is not restricted to bioinformatics research. From Dr Olga Feher (DDR)

https://warwick.ac.uk/research/rtp/bioinformatics/clinicsandevents/

Neuroscience Cluster

The School of Life Sciences has recently created a series of new research clusters to bring together like-minded researchers into a common theme, to share ideas and network. The Neuroscience cluster is led by myself, Rob Huckstepp, and Emily Lane-Hill. We are hoping to extend the cluster to include all researchers at Warwick with an interest in Neuroscience. We will hold monthly hybrid seminars from researchers within the network, we also aim to bring in external speakers from leading research groups, and we are planning to hold an annual Neuroscience symposium. Our aim is to create a social network throughout the university that will hopefully drive increased collaboration between researchers working on Neuroscience and related areas.

For further details please see our website (https://warwick.ac.uk/fac/sci/lifesci/research/neuro/), and to keep up to date please follow our twitter page (https://twitter.com/SLSNeurosci)

If you are interested in joining the Neuroscience cluster, please email either R.Huckstepp@warwick.ac.uk or E.Hill.4@warwick.ac.uk for further details.

Sustainable Cities GRP Small Grants Scheme 2022/2023 - Open for application

Sustainable Cities Global Research Priority is dedicated to supporting Warwick's research community, providing support and resources to those working in and with urban research. Find out more about the grants and how to apply: https://warwick.ac.uk/research/priorities/sustainable-cities/funding/smallgrants/

In the Press

Research published by collaborators of Dieter Wolke in The Lancet Psychiatry today find that "Most young people who leave CAMHS do not see a worsening of symptoms".

University of Sanctuary Introductory training for staff and students

Warwick holds a University of Sanctuary award, recognising good practice welcoming people seeking sanctuary through facilitated access to higher education, supporting local refugee communities, and taking an active role in learning about the issues and obstacles faced by this group in pursuing higher education. You can read more about University of Sanctuary on our webpage here, and **there are also things you can do to support a culture of safety, solidarity, and empowerment for people seeking sanctuary – including completing our new training module!**

One of the most valuable things we can do all do is educate ourselves. Do you know the difference between an asylum seeker and a refugee? Are you familiar with the UK asylum process? Do you know why people migrate? Our introductory training module is designed to assist staff and students at Warwick to develop insights into the life of asylum seeker and refugee students in the UK. This presentation will take you on an interactive learning journey allowing you to select and explore information a section at a time.

You can complete the training here, we hope you will find it useful.
