## [Live webinar on the Gender-Equality-Paradox](#)

**Speakers:** Gijbert Stoet (Essex), Sarah S. Richardson (Harvard), Anton Andersson / Petri Kajonius (Lund), Arij Yehya / Anu Realo (Warwick), Mathias Berggren (Uppsala), Guy Madison (Umeå) / Charlotta Stern (Stockholm).

**About:** The Gender-Equality-Paradox is the finding that gender differences in various psychological traits, preferences, and social behaviors are larger in countries that score higher on various measures of gender equality. This webinar is intended to provide a broad overview of current research and theory development, and to foster dialogue between different disciplines and perspectives. It will cover the paradox in a broad sense, with several short presentations from scholars who engage with different aspects related to the topic.

**Practical information:** The event will take place online, January 19, 2023, 14.00–16.30 CET. It is free and open to the public. Read more and register [here](#).

## **BBSRC FTMA4 (Flexible Talent Mobility Account 4) call for applications**

## [Faculty of Science, Engineering and Medicine Post-Doctoral Research Prizes 2023](#)

The SEM Faculty postdoctoral research prizes for outputs (e.g., papers) published in 2022 is open for nominations. If you have a (self/other) nomination for this prize, please email [Dr Olga Feher](#) (Deputy Director of Research) by 31 March 2023 who is running the Departmental selection process. Full details of eligibility criteria [here](#).

The University has been awarded a BBSRC Flexible Talent Mobility Account 4 (FTMA4) to enhance the personal development, visibility and recognition of both technicians and researchers. The core FTMA4 schemes have been designed to increase two-way mobility with industry and embed industrial interaction within our research culture. Applications are invited for industrial secondments and FTMA4 Fellowships. This scheme is open to employed postdoctoral researchers, technicians, and external industrial applicants. Applicants do not need to have been previously funded by BBSRC, but all projects must be under [BBSRC remit](#). Applications can be submitted at any time and will be reviewed on a rolling basis and will close once all funding has been allocated. For more information, please visit the [FTMA4 webpages](#).

**National Data Science and AI Innovation  
Bootcamp: 16-17 February and 14 March  
2023**

The Alan Turing Institute and the University of Warwick have collaborated to create a National Data Science and AI Innovation Bootcamp (NIB). The focus of NIB is to create commercial awareness and transferrable business skills and help individuals understand the commercial potential of their research area. The environment will be fully supported with access to expert mentors. This residential course hosted at Warwick Conferences will deliver a bootcamp of research translation skills to the National Data Science and Artificial Intelligence research community. ### **UKRO Annual Event- Tues 31<sup>st</sup> Jan 2023, 9am- 12pm**

As a [UK Research Office \(UKRO\)](#) member organisation, the University of Warwick runs annual UKRO events, featuring presenters from UKRO. The next UKRO Annual Event is confirmed for the **morning of 31<sup>st</sup> January 2023 (9am- 12pm)**. The session will be in person, with the option to join online.

We will be joined by Phil Holliday from UKRO who will introduce Horizon Europe including the UKRI Guarantee latest updates, status of Association, the new 2023-24 Work Programmes and applying under the new WPs. We will then have a session on writing competitive proposals to Horizon Europe and what reviewers are looking for in Pillar 1 and Pillar 2 schemes (including ERC, MSCA and Pillar 2 consortia-style/ cluster calls). Finally, we will have a Q&A session for research support staff and individual researchers with bespoke questions for UKRO.

Attendees can either attend the entire half day or one or more of these 3 sessions. The UKRO Annual Event is open to all Warwick academic and research support staff. Later in the year, when Jon Brookes is back at UKRO, we will organise a further half a day UKRO online session.

### **Research Funding Expanding Excellence in England (E3): Round 2 - internal expression of interest**

If interested get in touch with Adam Sanborn in advance of the deadline.

Closing date: 16 January 2023

Research England have released their second round for [the Expanding Excellence in England](#) (E3) fund. E3 aims to support the strategic expansion of excellent research units and departments in HEIs across England. In order to expand excellence, E3 focusses only on units and departments where there is demonstrable research excellence already, but limited scale of activity. E3's are expected to make an important contribution to enabling the Government's commitment to economic growth across England, develop and diversify the research talent pipeline across England, and build new capacity to deliver excellent research and advance the research and innovation agenda.

### **Safeguarding Update**

Department Safeguarding Office, Linda Wilson, sent reminder 16-12-22

Safeguarding have asked me to remind you that when running events involving children or adults at risk, a safeguarding risk assessment form must be completed and emailed to the safeguarding team for comment/approval.

So please, if you are hosting any event; taking part in a recruitment event off campus or undertaking research which may include children or vulnerable adults, contact me about creating a risk assessment in plenty of time so that we can get approval from the safeguarding team.

There have been some small updates to the safeguarding policy recently to incorporate some changes that were made to Keeping Children Safe in Education for 2022 which can be viewed [here](#). Anyone with safeguarding responsibilities is politely reminded to complete the Educare safeguarding training courses on Child Protection Fundamentals and Safeguarding Young People (Colleges and Universities). Please email [safeguarding@warwick.ac.uk](mailto:safeguarding@warwick.ac.uk) if you are having difficulties with registration. There is also additional Moodle training for those involved with degree apprenticeships, which can be accessed [here](#). Safeguarding would also like to remind colleagues to send through any risk assessments to them at the above email for any event involving children or adults at risk for comment/approval.
