

Dr. Sallie Ann Keller

Dr. Keller is a Professor of Statistics at University of Waterloo and formerly their Vice-President, Academic & Provost. Prior to this she was the director of the IDA Science and Technology Policy Institute in Washington DC. Prior to this she was the William and Stephanie Sick Dean of Engineering and Professor of Statistics at Rice University. Her other appointments include head of the Statistical Sciences group at Los Alamos National Laboratory, professor and director of graduate studies in the Department of Statistics at Kansas State University, and statistics program director at the National Science Foundation. She has served as a member of the National Academy of Sciences Board on Mathematical Sciences and its Applications, has chaired the Committee on Applied and Theoretical Statistics, and is currently a member of the Committee on National Statistics. Her areas of research are uncertainty quantification, computational and graphical statistics and related software and modeling techniques, and data access and confidentiality. She is a national associate of the National Academy of Sciences, fellow of the American Association for the Advancement of Science, and elected member of the International Statistics Institute. She is also a fellow and past president of the American Statistical Association. She holds a Ph.D. in statistics from the Iowa State University of Science and Technology.
