

ST116 Feedback Nazem

I attended at least 75 percent of my tutorials	ST116 Feedback_I have found attending tutorials useful.	ST116 Feedback_Tutorials were run in an engaging way and students were given the opportunity to participate.	ST116 Feedback_The tutor was well prepared and explained concepts well.	ST116 Feedback_I could easily read the information written on the screen/board.	ST116 Feedback_I received helpful feedback on my written work	Which tutor are you completing this for	What do you think was the best about the tutorials	Do you have any suggestions on how to further improve tutorial delivery and/or organisation in the future	Any further comments
Yes	Strongly Agree	Strongly Agree	Strongly Agree	Strongly Agree	Agree	Nazem Khan	He explained topics which I found difficult in a way that was easier to understand.		
Yes	Neutral, Strongly Agree	Neutral, Strongly Agree	Neutral, Strongly Agree	Neutral, Strongly Agree	Neutral, Strongly Agree	Nazem Khan	Nazem clearly explained the processes he was following when going through answers explaining each step which helped with my understanding. He also asked for contributions rather than just talking away for the duration of the tutorial.	I really liked the online tutorials.	I would like to have Nazem for further tutorials in the future.

Yes	Agree	Neutral	Agree	Neutral	Agree	Nazem Khan	The quizzes at the start to promote competition and remind us about the content	Maybe make the tutorials slightly more interactive so we could get to know our peers more by doing pair projects or group work.	Very great and professional supervisor, I wish him all the best for his Masters

Yes	Agree	Strongly Agree	Strongly Agree	Disagree	Agree	Nazem Khan	The Kahoot! quizzes were engaging and also competitive whilst also providing extension questions to solidify the knowledge from that weeks tutorial sheet	Nazeem was slightly quiet, at times it was difficult to hear him from the back of the room. So maybe speak a bit louder it future, but other than that he was great!
